OUR FARM

The staff at Greenstreet Growers is dedicated to producing healthy, high quality plants acclimatized for the tri-state area. Our professional growing staff have more than 42 years experience growing for Greenstreet or other local growers. Given the increase of extreme weather patterns, our team knows how to use our eco-friendly growing procedures to meet the challenges of getting your plants to peak performance.

Greenstreet plants are selected to provide the eye-catching, traffic stopping WOW factor your customers will covet in their residential properties, commercial common spaces, upscale terraces, backyards and living walls. In addition, we are available for onsite consultation before, during and after planting. We are committed to offering ideas, information and all the resources needed to maximize visual appeal and increase property value for your clients.

We at Greenstreet strive to provide you with the best quality plants available, and we continue to evolve to meet the needs of you and your clients. Please let us know if there are ways in which we can improve.

SOIL & SOIL AMENDMENTS

BUMPER CROP

Bumper Crop is an organic soil amendment, supercharged with mycorrhizae, worm castings, kelp meal, and dehydrated poultry manure, which is perfect for conditioning any soil!

GARDENER'S GOLD

The best soil for all outdoor and indoor container plants, this product is blended together with sphagnum peat moss, composted hen manure, shellfish, perlite and very old dark bark! It's also pH adjusted with lime and is made with a special water saving formula.

QUODDY BLEND LOBSTER COMPOST

This is a best-seller amendment made with chitin, calcium-rich lobster shells, compost and peat humus. This complex amendment drains well and is ideal for conditioning beds, borders, vegetable gardens, herbs and annuals.

NATURE'S SOURCE LIQUID FERTILIZER

Natural and Sustainable formula brings out the best in everything you grow. Effective in wide range of crops, soil conditions and environments.

NUTRICOTE PANSY SPECIAL FERTILIZER

High in Nitrate Nitrogen with Calcium & Magnesium. Formulated to produce compact plants with vibrant blooms.

GREENWALLS

CLEANER HEALTHIER AIR

Our Active Living Walls Let You Breathe Easy in Your Home or Office

www.greenstreetgreenwalls.com

A BLEND OF HORTICULTURE, STYLE AND FUNCTIONALITY

Green walls — also known as living walls, green facades, bio walls or vertical gardens — are a system of plants grown on a vertical orientation.

On the cutting edge of design, green walls create a dramatic statement for both interior and exterior spaces.

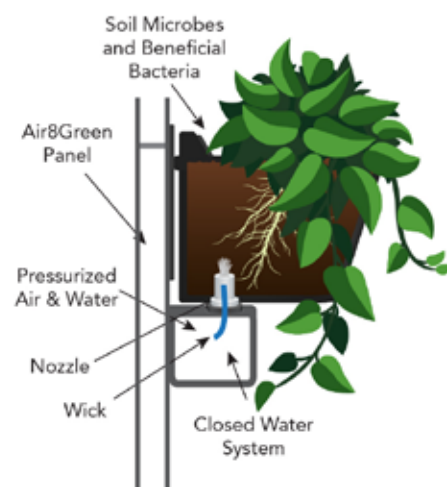

EXTERIOR GREEN WALLS add an aesthetic value to your building. The eco-friendly system will also:

- Improve Exterior Air Quality
- Building Structure Protection
- Reduce Urban Heat Island Effect
- Increased Biodiversity
- Noise Reduction
- Marketing Potential
- Urban Agriculture

INTERIOR GREEN WALLS transform the look, feel and health of your indoor space. They also:

- Improve air quality
- Breaks down VOC's
- Reduce noise
- Regulate temperature
- Save energy
- Increase property value
- Qualify for LEED credits
